DETAILED ACTION

1. The enclosed detailed action is in response to the Amendment submitted on February 13, 2006.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 2-5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 2 states "...a write-enabled one of the tape application programs designated to perform a record of tape formatted...a write-protected one of the tape application programs designated to perform a playback of tape formatted data.." The specification describes the processors having write enabled access operation and no write access operation referred to as write protected. The specification does not disclose the programs being write enabled or write protected. Clarification is required.
